

06 Safeguarding children, young people and vulnerable adults procedures

06.9 E-safety (including all electronic devices with internet capacity)

Online Safety

It is important that children and young people receive consistent messages about the safe use of technology and are able to recognise and manage the risks posed in both the real and the virtual world.

Terms such as 'e-safety', 'online', 'communication technologies' and 'digital technologies' refer to fixed and mobile technologies that adults and children may encounter, now and in the future, which allow them access to content and communications that could raise issues or pose risks. The issues are:

Content – being exposed to illegal, inappropriate or harmful material

Contact – being subjected to harmful online interaction with other users

Conduct – personal online behaviour that increases the likelihood of, or causes, harm

I.C.T Equipment

- The setting managers ensures that all computers have up-to-date virus protection installed.
- Tablets are only used for the purposes of observation, assessment and planning and to take photographs for individual children's learning journeys.
- Tablets remain on the premises and are stored securely at all times when not in use.
- Staff follow the additional guidance provided with the system

Internet access

- Children never have unsupervised access to the internet.
- The setting managers ensures that risk assessments in relation to e-safety are completed.
- Only reputable sites with a focus on early learning are used (e.g. CBeebies).
- Video sharing sites such as YouTube are not accessed due to the risk of inappropriate content.
- Children are taught the following stay safe principles in an age appropriate way:
 - only go online with a grown up
 - be kind online **and** keep information about me safely
 - only press buttons on the internet to things I understand
 - tell a grown up if something makes me unhappy on the internet
- Staff support children's resilience in relation to issues they may face online, and address issues such as staying safe, appropriate friendships, asking for help if unsure, not keeping secrets as part of social and emotional development in age-appropriate ways.
- All computers for use by children are sited in an area clearly visible to staff.

- Staff report any suspicious or offensive material, including material which may incite racism, bullying or discrimination to the Internet Watch Foundation at www.iwf.org.uk.

The setting manager ensures staff have access to age-appropriate resources to enable them to assist children to use the internet safely.

Strategies to minimise risk include:

- Check apps, websites and search results before using them with children.
- Children are always supervised when accessing the internet.
- Role model safe behaviour and privacy awareness. Children are talked to about internet safety.
- Check privacy settings on social media to ensure data is not being shared inadvertently.

Personal mobile phones – staff and visitors (includes internet enabled devices)

- Personal mobile phones and internet enabled devices are not used by staff during working hours. This does not include breaks where personal mobiles may be used off the premises or in the setting office. (An exception to this is in the event of the emergency evacuation of the building (see policy 2.2) which allows the Manager to use their personal mobile to contact emergency services and parents, if our landline phone is out of range).
- Personal mobile phones are switched off, or put on silent mode, and stored in the setting office.
- In an emergency, personal mobile phones may be used in the privacy of the office with permission.
- Staff ensure that contact details of the setting are known to family and people who may need to contact them in an emergency.
- Members of staff do not use personal equipment to take photographs of children.
- Parents and visitors do not use their mobile phones on the premises. If a parent or visitor needs to be contactable during their visit they will be given the settings telephone number to pass onto anyone who needs to have contact with them whilst at the setting. Visitors are advised of a private space where they can use their mobile.

Cameras and videos

- Members of staff and volunteers do not bring their own cameras or video recorders to the setting.
- Photographs/recordings of children are only taken for valid reasons, e.g. to record learning and development, or for displays, and are only taken on equipment belonging to the setting.
- Camera and video use is monitored by the setting manager.
- Where parents request permission to photograph or record their own children at special events, general permission is first gained from all parents for their children to be included. Parents are told they do not have a right to photograph or upload photos of anyone else's children.

- All photos are printed on setting equipment and are not outsourced for printing by an external company. The exceptions to this are the leavers photo, and children's year photo's. In both these instances parents are informed and have the choice as to whether their child is included.
- Photographs/recordings of children are only made if relevant permissions are in place.
- If photographs are used for publicity, parental consent is gained and safeguarding risks minimised, e.g. children may be identified if photographed in a sweatshirt with the name of their setting on it.

Smart Watches (and other devices that with imaging and sharing capabilities)

- Members of staff and volunteers must not wear, or carry a personal device with imaging capabilities in the setting whilst children are present. If worn to work, these must be placed in their bags in the locked office and only accessed, in the office or off the premises, during breaks.
- Smart watches (that do not have imaging capabilities) may be worn during the session, provided they are set to aeroplane mode and they have signed the smart watch safeguarding agreement.
- Staff members who fail to comply with the smart watch safeguarding agreement understand that this constitutes a safeguarding breach and will be dealt with as a disciplinary matter.

Cyber Bullying

If staff become aware that a child is the victim of cyber-bullying at home or elsewhere, they discuss this with the parents and refer them to help, such as: NSPCC Tel: 0808 800 5000 www.nspcc.org.uk or ChildLine Tel: 0800 1111 www.childline.org.uk

Use of social media

Staff are expected to:

- understand how to manage their security settings to ensure that their information is only available to people they choose to share information with
- ensure the organisation is not negatively affected by their actions and do not name the setting
- are aware that comments or photographs online may be accessible to anyone and should use their judgement before posting
- are aware that images, such as those on Snapshot may still be accessed by others and a permanent record of them made, for example, by taking a screen shot of the image with a mobile phone
- observe confidentiality and refrain from discussing any issues relating to work
- not share information they would not want children, parents or colleagues to view
- set privacy settings to personal social networking and restrict those who are able to access

- not accept service users/children/parents as friends, as it is a breach of professional conduct, however existing friends before the family starts as preschool are permitted.
- report any concerns or breaches to the DSL or DDSL in their setting
- not engage in personal communication, including on social networking sites, with children and parents with whom they act in a professional capacity. There may be occasions when the practitioner and family are friendly prior to the child coming to the setting. In this case information is shared with the manager and a risk assessment and agreement in relation to boundaries are agreed

Use/distribution of inappropriate images

- Staff are aware that it is an offence to distribute indecent images and that it is an offence to groom children online. In the event of a concern that a colleague is behaving inappropriately, staff advise the DSL or DDSL who follow procedure 06.2 Allegations against staff, volunteers or agency staff.
